ANNEX 3-A

PRODUCT SPECIFIC RULES

Headnote

1. The Product Specific Rules in this Annex are structured on the basis of the Harmonized System 2012. In the event of any inconsistency between this description and the description set out in the legal text of the Harmonized System established by the World Customs Organization, the description set out in the latter shall prevail.

2. The specific rule of origin, or specific set of rules of origin, that applies to a particular subheading, is set out immediately adjacent to the subheading.

3. When a subheading is subject to alternative specific rules of origin, the rule will be considered to be met if a good satisfies one of the alternatives.

A requirement of a change in tariff classification shall apply only to non-originating materials.

5. Where a specific rule of origin is defined using the criterion of a change in tariff classification, and the rule is written to exclude tariff provisions at the level of a chapter, heading or subheading of the Harmonized System, each Party shall construe the rule of origin to require that materials classified in those excluded provisions be originating for the good to qualify as originating.

6. For the purposes of this Annex:

chapter means the first two digits of the tariff classification number under the Harmonized System;

heading means the first four digits of the tariff classification number under the Harmonized System; and

subheading means the first six digits of the tariff classification number under the Harmonized System.
